Strengthening

Greek Street Roundabout Works Digital Toolkit

Stockport

Purpose

In this toolkit you will find an array of assets that can be used to communicate with the public about the ongoing works at Greek Street Roundabout, Stockport.

These works will continue throughout the rest of 2025 and will be completed in spring 2026.

Strengthening Infrastructure

Strengthening Reliability

Strengthening Community

External Comms / TOV

In all external communications, it is important to make clear the purpose and long-term benefits of the work taking place.

Example copy:

"The Greek Street bridge is being demolished and rebuilt as part of a £20m Network Rail investment to benefit both the road and rail network.

The original bridge, which was constructed in 1958, needs to be replaced with a modern structure that will last for up to 120 years."

etwork Rai

External Comms / TOV

Please maintain an open, friendly, empathetic and understanding tone of voice when speaking about the project. These works are significant in scope and timescale and will cause inconvenience to passengers, so it is vital we are mindful of that.

Example copy: "We understand the disruption will be inconvenient for passengers, and we're really sorry about that."
